

International conference MULTI-DISCIPLINARY APPROACH IN ENVIRONMENT PROTECTION FOR SUSTAINABLE DEVELOPMENT

Can Tho University, November 27th 2020

The 1st announcement of the international conference “**Multi-Disciplinary Approach in Environment Protection for Sustainable Development**” has already received great consideration from scientists, especially those from the *Can Tho University Improvement Project*¹ (funded by the Japan International Cooperation Agency, JICA). Due to requests from scientists to extend the deadline of the extended abstract submission, the Conference Committee agrees to extend the extended abstract submission deadline to **October 16th, 2020**.

The following themes will be included:

- Environmental monitoring, modeling and engineering;
- Biodiversity and changes of the deltaic systems;
- Environment economics and farming system analysis;
- Climate change – possible adaptation and mitigation practices and strategies.

Apart from oral presentation, participants are strongly encouraged to present works related to any of aspect of the Delta in a poster section at the conference.

Location: Can Tho University, Viet Nam

Categories: Environment, natural resources, sustainable development

Important dates:

- Abstract submission (extended abstract including Figures and Tables, Max. 3 pages) *is extended* to **October 16th, 2020** via hoithaomttntnbdkh@ctu.edu.vn
- Registration of participation (*at* hoithaomttntnbdkh@ctu.edu.vn) *is extended* to **October 16th, 2020**
- Conference: **November 27th, 2020**

Organizer:

- Can Tho University
- Partners from JICA – CTU improvement project.
